

DOUBLE-LANTOS MINI

The **DOUBLE-LANTOS MINI** leads the wearer into a vertical connection with the Divine Primordial Source and Mother Earth, thereby increasing the frequency of vibration. It thus develops an excellent protective field, also regarding electrosmog* (excl. 5G) and other geopathic interference fields (Water veins, earth rays etc.).

* All mobile radio devices radiating negative interference fields in close proximity should be harmonized additionally and separately.

This pendant is used to energize the personal light field of the wearer and should therefore only be worn during the day (in an upright position). It is not designed to harmonize living spaces.

The color version AQUA is currently highly relevant, as many people have issues with fears and a lack of trust, which are often linked to emotional wounds and mental patterns that block the throat chakra.

Each piece is unique and hand made.

TECHNICAL DETAILS

Material: Zirconia (diamond imitation)
925 Rhodium plated Sterling Silver

Size: 18 x 30 mm
