

ELECTRIC SPECIAL

With the **ELECTRIC SPECIAL** large electrical systems such as power cables, mobile radio transmitter, power distributors, large industrial machines etc. can be harmonized directly on the system itself.

Unlike the ELECTRIC plates, they have no lamination, so they remain flexible and can be applied better to the required objects.

It should be tested individually, how many units are required. Our consultants will be happy to assist you.

TECHNICAL DETAILS

Material: Glass fiber fabric, laminated

Size: 43 x 17 cm
