

FOSTAC H.O.M.E 88 & DESIGN 88

The **FOSTAC H.O.M.E** combines the **harmonizing properties of Tachyon energy with the health promoting qualities of the untreated Stone pine wood.**

In a timeless design, a community of soothing energies are efficacious that make every room a home.

Thanks to the combination of powerful tachyonized elements, the FOSTAC H.O.M.E is able to harmonize the following influences:

- **Electrosmog (incl. 5G)***
- **Geopathic patterns (earth rays, water veins etc.)**
- **Negative ethereal energies (Hyperspace holes, earthbound souls, curses etc.)**
- **Radon and natural radioactivity**

In addition to these effects, the characteristic gentle fragrance of the Stone pine wood, caused by the essential oils in the **untreated** wood, has several positive effects on our health:

- lowers the heart rate
- calmes and balances
- promotes sleep
- inhibits bacteria education
- promotes recovery etc.

These positive properties are enhanced in the FOSTAC H.O.M.E by the tachyonization.

* For high electromagnetic pollution or directional beam loads, we recommend the additional use of a SANA LEA OMNIGOLD or OCTARION/OCTARINO and for all wireless devices the FOSTAC OMNI CHIP or the ELECTRIC plate (Mini, A6 or A5). The negative effects of the internal power network can be harmonized with ELECTRIC plates (A6, A5 or A4).

TECHNICAL DETAILS

Material: Stone pine wood / Borosilicate glass / real gold / granules / glass fiber fabric

Size: 36 x 36 x 88 cm

MODEL TYPES

The FOSTAC H.O.M.E 88 is available in two different versions:

- **FOSTAC H.O.M.E 88**
- **FOSTAC H.O.M.E DESIGN 88**

The **FOSTAC H.O.M.E 88** appears in a simple and timeless design.

The **FOSTAC H.O.M.E DESIGN 88** looks a bit more rustic and provides an internal dimmable LED lighting with touch switch, which creates an atmospheric effect.

The recess in the lid offers a variety of uses, such as a fragrance enhancer with pine wood chips or for the equipment with complementary products.

Both models are well suited for the harmonization and vitalization of large properties such as hotels, hospitals, seminar centers etc.

It is recommended to individually test the optimal size of the FOSTAC H.O.M.E model.

Note: Stone pine wood is inherently rather soft and delicate. Since it is an untreated wood, it should be protected from stains (finger prints etc). If necessary, sand off any stains **very gently**, using fine sandpaper (grain size 150).

TECHNICAL DETAILS

Material:

- Stone pine wood
- Glass hollow tube with Borasilicate and real gold
- Glass lens with golden imprint
- Glass granules
- Glass fiber fabric
- Dimmable LED lighting (DESIGN types)

FOSTAC H.O.M.E 88

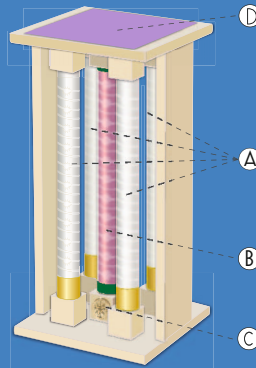

| | |
|---------------------|--------------------------|
| Dimensions: | 36 x 36 x 88 cm |
| FOS RODS: | 37 x 3.8 cm |
| RHO ROD: | 43 x 3 cm |
| GEO PLATE: | approx. 28 x 28 cm |
| Weight: | approx. 23 kg |
| Sphere of activity* | approx. 55 m (spherical) |

FOSTAC H.O.M.E DESIGN 88

| | |
|---------------------|--------------------------|
| Dimensions: | 36 x 36 x 88 cm |
| FOS RODS: | 37 x 3.8 cm |
| RHO ROD: | 43 x 3 cm |
| GEO PLATE: | approx. 28 x 28 cm |
| Weight: | approx. 24 kg |
| Sphere of activity* | approx. 55 m (spherical) |

INTERNAL STRUCTURE

- 4 pcs FOS RODS (A)
- 1 pce RHO ROD (B)
- 1 pce OMNIUM lens (C)
- 1 pce GEO PLATE special size (D)
- Dimmable LED Lighting (DESIGN types)

* This approximate value depends on the entire influences of radiation.
