

FREQUENCY ACCELERATOR

The **FREQUENCY ACCELERATOR** is placed overnight in a Glass jug filled with water. Drinking this water throughout the day leads to an energetical re-information of the body cells.

Remove the product from the jug before drinking.

The effect can be further intensified if you place the AMPLIFIER next to the water jug, with the oblique side against the jug.

Compared to the AQUAFLOW the FREQUENCY ACCELERATOR has an increasing influence on the vibration level, but not on the degree of water hardness (lime).

TECHNICAL DETAILS

Material: Glass

Size: Length 50 mm, Ø 25 mm
