

# GEO MINI

The **GEO MINI** is a product with **virtually no limits:**

It is suited to **vitalize beverages** (water, coffee, tea, fruit juices, wine etc.) as well as food (in Restaurants etc). Especially acidic beverages can be made more digestible and tastier with the GEO MINI.

**Seeds** can be placed on a GEO MINI before sowing. Tests with sunflowers have shown that those plants whose seeds have been energized for one week have grown taller, stronger and healthier. (Use the GEO A4 for large seed quantities.)

A tip for **Smokers:** The GEO MINI - inserted in the cigarette pack - reduces the aggressiveness of the smoke and erases the addiction information of the cigarettes.

To **relieve pain**, the GEO MINI can be held onto the painful area of the body - the relieving effects will arise quickly.

Owing to its convenient size, the GEO MINI fits into every wallet, purse or handbag.

## TECHNICAL DETAILS
